COUNTING-ROOM ALMANAC. 1853.

Celebrated Indian Doctor, JOS. SAUKABASIN,

Has availed himself of the medical knowledge of the Indian who compounded the medicines of his country and having by upwards of twenty years experience gained a knowledge of the most perfect combination of the vegetable substances which are the growth and natural remedy for the diseases the climate offers has met in all disorders. He has in his possession a number of certificates testifying to the fully beneficial and often sudden effects of his medicines. From a very large number of cures he selects the following:

Brewer, July 9, 1849.

To whom it may concern.—This will certify that I had a severe attack of the Rheumatism in my hips. I tried this means to cure it, but it grew worse and worse for three months, when I applied to Dr. JOSEPH SAUKABASIN, one of the Penobscot tribe of Indians, who cured me entirely and in a very short time, and I have never been troubled with it since. And I feel it due from me to the community to recommend him as a safe and skillful physician. BENJAMIN SNOW.

This will certify that I was afflicted for over thirty years with a Scrofulous humor in my leg, and I applied to four of the physicians and got no relief, and I fell in with JOSEPH SAUKABASIN and he gave me one bottle of medicine and cured me so it has troubled me none since. It healed perfectly sound. My daughter Hannah was afflicted with a cough and spitting of Blood and he took the same to her cure. SYLVANUS COOMBS.

Eden, August 15, 1842.

HOLDEN, Dec. 3, 1842.

Mr. Saukabasin—Dear Sir: I feel it a duty to give you my thanks for curing my wife of a disease of long standing, which most of the medical men called a Scrofulous complaint—and I believe if it had been for any medicine she now would have been in the grave. In December 7th, 1852—I feel perfectly satisfied that Dr. Joseph Saukabasin has cured my boy of a fever sore, when all other doctors gave him up. NATHAN DYER.

He has for sale this fall in Brewer, above the Toll Bridge where he may be consulted by mail or otherwise and will be frequently in Bangor.

DR. KINNE'S Magneto-Electric Machine.

CERTIFICATE.—I have examined Dr Kinne's Magneto-Electric Machine, and consider it well adapted for medical purposes, possessing the advantage of operating without either chemicals, lotions or labor, and being capable of being wound up like a watch and giving a continuous action of an intensity easily regulated, for nearly half an hour, I regard it as superior to any machine now in use. BANGOR AIRTIGHT COOK STOVE

BANGOR AIR-TIGHT COOKING STOVE!

THE best Cook Stove ever introduced to the public or any other people.

Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market, by those experienced and experienced Stove manufacturers. Messrs. Lustes & Whittier, who know, and have appreciated the wants of the enlightened people. It is now offered to the public with the fullest confidence in its merits and superiority over every other Cooking apparatus ever introduced. Its consumedness in Baking, Broiling, Frying, &c. is not surpassed, and its extensive and beautiful Oven for Baking and Roasting will at once recommend itself to the ladies. One very important feature is, it has very strong and smooth castings and being manufactured in this city can at all times be repaired if ever necessary at a trifling expense without subjecting one to wait for castings to be ordered from New York, Rhode Island or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded after 30 days trial.

—ALSO—

A great variety of other patterns of cooking Stoves such as the Our State, Bay State, Empire State, Granite State, State of Maine, &c., All or any of which will be sold at extremely low prices.

Elevated Oven Stoves—Fifteen Sand 4 Boiler and two Oven—Boston two oven Stoves, Forrest Queen &c—and that very beautiful pattern of Cottage Parlor Cook Stove, and in fact every variety of Stove for Cooking or warming, which by police, can be found at the Central Street Stove and Furnace Ret 2

CULVER'S COAL FURNACE

is acknowledged to be the very best Furnace for coal ever introduced.

PROUTY & MEAR'S WOOD FURNACE!

Manufactured entirely of Cast Iron is the most durable and economical Wood Furnace to be had.

—ALSO—

Our Kennebec Wood Furnace of which I sold the past season 10 or 12 and they have all given entire satisfaction. From six to eight cords of dry hard wood is sufficient to warm any ordinary size dwelling house.

Any of the above Furnaces set in the best and most approved manner at short notice.

Well and Cistern Pumps of all the desirable patterns and sizes. Lead Pipe, Sheet Lead, Sheet Zinc, &c., &c.

JAMES FREDERICK FOSTER,

MANUFACTURER OF

Ratchet and Spiral Trusses,

467 *Washington Street*, 467,

BOSTON.

ALL the various approved trusses constantly for sale. Ladies wanted on by Mrs CAROLINE D. FOSTER, who has had twenty years experience in the business.

Strangers in the city will please take notice the odd numbers and the even numbers are on opposite sides of the street, it being 446 opposite to the subscriber's residence 467 where he will keep a full supply of Ready Made Trusses, for Gentlemen and Ladies, Youths and Infants. Abdominal Supports of five or six different kinds and such as Hull's, Chapin's Spinal Cutter's, Fitch's, Ingall's, &c., &c.

☞ Ladies waited upon by Mrs Caroline D. Foster at the above place.

The following certificate from Dr John C Warren of Boston, was given 16 years since but will last forever.

BOSTON January 7, 1835

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr Heath. After some months of observation of his work, am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to those important articles.

JOHN C WARREN, M D, Boston

CERTIFICATE. The following certificate is from Professor Stuart, of Andover Theological Seminary.

The undersigned having occasion to employ Mr J Frederick Foster of Boston in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr Foster's success in the manufacture and adapting them to the body, giving ease and comfort to the wearer, surpasses (as far as our experience goes) any other manufacturer of the article.

The numerous testimonials which he has received, together with the recommendation of that eminent surgeon, Dr J C Warren, are a sufficient guarantee for all who may favor Mr F that his instruments will give entire satisfaction and he will satisfy all reasonable demands for an equitable compensation. PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, *WASHINGTON.*

No 22 State Street, . . Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th Sec of Act of 37.

Having relinquished the Agency for the transaction of Models, and adopted a more expeditious mode of sending them to the Patent Office *where by a Patent may be procured about six weeks earlier* the continues to forward them free of expense—to prepare Caveats, Specifications Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions and of consulting in respect to them, *matters, in general of paramount importance in order to obtain correct specifications and claims.* The experience of *sixteen* year's practice, an extensive collection of rare works, decisions &c on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford inventors desirous of procuring Patents assistance and information which in other respects might be difficult of attainment.

R H EDDY Solicitor of Patents

WASHINGTON, JULY 21, 1849.---During the time I occupied the Office of Commissioner of Patents R H EDDY, Esq., of Boston did business at the Patent Office as Solicitor for procuring Patents. There were fewer of any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. To the Governor, Senate, and House of Representatives, in Legislature assembled.

WE, the undersigned, citizens of Bangor would humbly represent that we are burdened with taxes and deprived of privileges by reason of our being incorporated into a city in the following manner to wit: We are taxed to support High Schools $2000 00; from which we cannot reap any benefit, because we are situated so far from them that we cannot send to them. Also,

$1500 00 for watch by night
120 00 City Physician,
500 00 Police Court
450 00 City Marshal
25 00 Harbor Master,
50 00 for ringing bell,
1500 00 for cleaning streets
6000 00 for interest on a debt contracted in making improvements in the city, which are no benefit to us nor ever be and after helping pay for all these things, we must make our streets and repair them mostly or let them go without repairs, our schools have been neglected also our school houses.

We are a farming and manufacturing community—our interest differs from that of those living in the thicker settled part of the city and it has almost universally been the case if we want a new street we must first make it and then the city will lay out and establish it, and besides doing this we have ever since the city has been incorporated paid in taxes double the amount annually that we have received in any way.

There are as many as 20 families whose children cannot get to school without trespassing by crossing land not their own and all this after having paid taxes to make streets and petitioned time after time for relief and has been so since the city has been incorporated.

Besides the above $14,002 which we have to help pay, which does not benefit us we have this year to help pay a temporary loan of $14,000 which originated from extra expenses building sewers and buying a lot and removing and repairing the city hall. Therefore we would humbly pray that we may be set off and incorporated into a town by the name of ——, having all the privileges of other towns in the State, said town to be bounded as follows—Beginning on the Penobscot River at the division line of the seventh ward on the south thence running on said division line to the new county road and thence about the same course until it intersects the north west line of the city, thence on said line until it strikes the line of Orono, thence on said Orono line to the Penobscot river, thence down said river to the first mentioned bounds. We infer from the figures and have the school houses now within the above mentioned bounds and the city to return all the other property and pay the debts as we have not received any benefit from the expenditure of the money for which this debt was contracted but have been paying interest on the debt ever since it was made—And as in duty bound will ever pray.

OF LADIES' CLOAK CLOTHS, Rich Browns and other colors, with Trimmings to match; opened this morning at

McCLURE & CO'S,
No 5 Gothic Block.

To the Hon Senate and House of Representatives of the State of Maine, in General Court assembled A D, 1853.

THE undersigned respectfully represents, that some three years since a charter was granted to certain individuals interested in land bordering on the Soudnack Stream for the purpose of making the necessary improvements in said stream to enable logs and other lumber to be driven to market and in said charter a toll of twenty cents per thousand feet, board measure was established. On examination it was ascertained that the necessary expenses of making said improvements would be very large, while the quantity of lumber to be cut and driven would be so small that no one would undertake to make said improvements under said charter.

The undersigned therefore pray that an additional act may be passed, fixing the toll at fifty cents per thousand feet board measure—all the owners of land in that region, immediately to be benefitted by said improvements to have the right of taking their portion of the same, *pro rata* their interest in land adjoining.

The North British Review, (Free Church)

The Westminster Review (Liberal)

Blackwood's Edinburgh Magazine, (Tory)

ALL these works are reprinted in the political shades above indicated by the publishers, a small portion of their contents is devoted to purely political subjects. It is their literary character which gives them their chief value and it is that they stand confessedly far above all other journals of their class. *Blackwood* still under the fatherly care of Christopher North, maintains its ascendancy as the most celebrated and at the same time most popular production from the pen of the veteran Wilson, and the literary notables, written for that magazine and first appearing in its columns both in Great Britain and in the United States. Such works as The Caxtons and My Novel, Mabel Vaughan, The Green Hand, Katie Stewart, and other serials of which none are usually issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Blackwood after it has been issued by Messrs. Scott & Co., so that subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating Tales.

Railroading and the Kennebec Journal.

A correspondent of the Kennebec Journal enters in editorial form, enters very vehemently into the subject of the railroad controversy between the Directors of the Penobscot and Kennebec Railroad and those who are striving to take away their charter, and for this purpose arraigns the press in this city for sustaining the rights and interests of the existing corporation of the Penobscot and Kennebec road and its officers of whatever character, and whatever may be the motive or combination of motives.

It was the attorney of the road and attorney like he proceeds to state of the press that an opportunity was offered to the members of the Legislature to examine the books of the Penobscot and Kennebec Railroad Company, to be satisfied false. Before he gets through with his article, however, he substantially admits the essential fact in the statement, viz. that the books of the Company were offered to the examination of the Committee. He has his own opinion, therefore we feel exhonerated from the charge of any wrong statement, as, certainly, we are conscience frees us from any intention of a false statement in the slightest particular.

We confess to some suspicions of the honesty of the Committee regarding those books, and we justify this suspicion in the fact of misrepresentations regarding the enterprising attempt to get the charter of the Bucksport, North American Railway extended to Penobscot to the Kennebec; and also in the fact that certain members of the Committee, interested parties, too deeply and vitally interested to judge of the matter fairly, or righteously. They ought not to have been on that Committee. Mr Wood has a large subscription to the stock of the Penobscot and Kennebec Railroad and having invested a large sum of money out of a contract to construct the road at a great price, we should be supposed desirous of getting rid of the subscription. He had a strong motive for wielding a seat upon the railroad Committee, those circumstances the strength of that motive is a reasonable ground of suspicion.

The report of that Committee, the appointment, with a knowledge that the subject was to come before the committee a disgrace has an implacable hatred to Penobscot and Kennebec road, and is an unfit to decide any question touching this road, of course, Mr Eaton. We have thought that any matters involving the rights of the P & K Road can stand a fair chance with that Committee, and the only course that remains is to let the Committee report as they may, and rely upon the Senate and House to see that justice is done in the premises.

The Journal charges our fellow citizens George W Pickering, Gen S P Benson and Gen W B S Moor, with being Whigs, and calls upon every man to arm himself and be prepared to defend his honor. We hope to be a fair, calm and truthful expression of the feeling of a portion of the members of the Legislature and of many other parties who are opposed to the P and K Railroad. If the feeling is up to that heroic point as to suggest the propriety of carrying the point by violence even then we could not have been fearful when we entertained suspicions of the safety of mere property in books in which men thus wrought up themselves gentlemen opponents of the interests and welfare of the P and K Road, arm yourselves their attorneys and counsellors, arm yourselves, interested members of the committee, if you choose. But by the flattering unction to your souls that you intimidate any one thereby you may perhaps be able to embarrass the P and K Road, but if you defeat that road, you do it at peril of the whole railroad system in the State. You place in jeopardy many interests and excite enmities that will live for years. We will not believe that you can prove successful in the destruction you have meditated. We believe that there is intelligence and honesty and independence enough in the legislature to protect the P and K Road in all its rights and privileges.

The talk of arming, of ruffians, and of the outrage on decencies, is doubtless started for the purpose of covering up the dark plottings and nefarious designs of the enemies of the P and K Road. The writer in the Journal, felt the necessity of getting up some dust in the shape of a rebellion. The movement is such as might have been expected, and is worthy of its sly and morally deformed author. We have opened the case sufficiently to our readers to give a fair view of the matter, and it is not necessary for us to offer a word in reference to the charge of our treatment of any of our citizens, they fully understand the misrepresentations of this inflated and venomous writer.

Female Physicians.

The Journal talks thus of female physicians:—That the medical profession is here to resist of women as well as men, is no longer a matter of doubt, judging from the tone of public sentiment in this direction. The preference for females in some departments of practice is becoming so general, we understand, that the few who are educated are overtasked with labor, and many incompetent women are prompted to advertise themselves for want of those better qualified to be employed. To prevent the evils from this source, it is important that the Female college in this city, designed to accommodate the wards of New England, should be placed in a condition to afford a thorough scientific and practical education to a sufficient number of suitably female.

Destructive Fire in Winthrop, Me.

On Sunday morning last, a very destructive fire occurred in the village of Winthrop, Me., destroying property to a large amount. Eight buildings in all were burned, seven of which were the property of Mr Luther Whitman. The fire caught in the saw-mill of Mr. Whitman, and extended to two large wood workshops, a machine shop, two lumber houses, full of valuable lumber, and the dwelling of Mr. Whitman, all of which were burned to the ground. A small portion of the machinery in the machine shop was saved, and most of the furniture in the house. Mr. Whitman's establishment, says the *Maine Farmer*, published at Augusta, was one of the largest and best equipped agricultural implement and tool manufactories in the State, and its destruction will be a serious calamity to the village. The large machine shop of S Benjamin & Co was also burned at the same time. The whole loss is estimated at $10,000, less than half of which is insured.

☞ Col Fuller, of the New York Mirror, states in the result of his observations in Cuba, that the island is not to be redeemed by filibuster speeches in Congress, nor Lopez expeditions against the Island. The most discontented of the Creoles desire no more of this sort of "sympathy," for which they have already paid so dearly. Besides contributing largely through "Cuban juntas" in the States to the support of rowdies and ragamuffins in New York and other cities, they have suffered sadly in their persons, in their business, and in their estates. There are now Cuban ladies in New York, doomed to expatriation or death for the part their husbands are suspected of having taken in these reckless expeditions. One gentleman has had to pay for damages perpetrated by Lopez at Cardenas to the amount of $22,000, and others have suffered in the same way, who are doubtless satisfied with this fruitless martyrdom.

☞ Notoriety is the important element of success in business. It is through the newspapers of the country that this can be thoroughly attained. Fortunes are accumulated in a few years by those who avail themselves of this power. The vast benefits resulting from systematic and continuous advertising are only beginning to be understood. It is demonstrated that the merchant, the manufacturer, or the mechanic, may increase his business at pleasure, in proportion to the energy and means he employs in gaining publicity.

☞ An exchange paper says that a freight train travelling at the rate of twenty four miles the hour, requires on a level 546 2-8 yards to come to a stop and 79½ seconds of time. A passenger train at the rate of forty-five miles the hour, cannot be brought up in less than 779 yards but takes rather less time—only 60 8 seconds. Two trains, therefore, approaching each other at a speed of twenty-four miles the hour, will experience a collision, if the breaks are not brought to bear when they are about eleven hundred yards, or nearly two-thirds of a mile asunder.

☞ The Belfast Journal tries to make up an issue on the action of the Executive Council in the nomination of a Whig Sheriff in Waldo County. If the democratic members of the Council vote for that confirmation, the Journal declares that it will bode no good to its party. We have no doubt that the nomination will be unanimously confirmed, let what party may lament over it. The ties of party are not very strong these days.

WASHINGTON, Feb. 17th

The successful bidders for carrying the mail from New Orleans to San Francisco via Vera Cruz, are Mr. Rankin of Poughkeepsie, Mr. Chas. Morgan and Mr. Aspinwall, the latter on the Pacific and the former from New Orleans to Vera Cruz. The parties from Vera Cruz to Acapulco are said to be Coleman and Sanford, and Simeon Draper of New York.

Sixty thousand bushels of molasses were imported into the State of Maine the past year.

Montenegro and the Montenegrines.

In the midst of the wild provinces of North Western Turkey, that border on the Adriatic, lies a mountain district. Its whole extent is barely ninety square miles, its entire population not more than 100,000, divided among some twenty villages. It is to be found between the limits of 42 deg 10 min. and 42 deg. 56 min. north lat., and 23 deg 22 min. east lon., and is bounded by Bosnia, Albania, Herzegovina and Croatia.

This little strip of territory is now the bone of contention that is threatening the sovereignty of the Porte, if not with utter ruin at least with loss and lasting disgrace. It is, indeed, impossible to calculate the power of a few mountaineers—animated with a resolute passion for independence—to disturb the repose and resist the strength of a vast Empire. Give a people but the advantages of secure position and the inspiration of grace and liberty, and the odds of numbers will scarcely be felt. The United States with her Seminoles in the Florida swamps, France with her Cabyles in the defiles of Algeria, England with her Kaffirs, Russia with the clans who defy her from the gorges of the Caucasus, have already given to history assurance of this, and now another instance is added in the existing warfare by the Sultan against the Montenegrins.

This warfare has become one of the memorabilia of the day. Every despatch from Europe records among its imperial marriages and changes of ministry, the varying fortunes of this little nation, which so gallantly upholds itself amid the waves of Turkish power which it beats baffled back.

And now the two great arbiters of the destinies of Eastern Europe Russia and Austria, are drawing into the conflict—and the "Eastern question, the perpetual puzzle of cabinets, bids fair to be revived. This is a sufficient apology for a word or two upon Montenegro and its people. They form, perhaps, the last fragment of the old Servian Kingdom, that once stretched from the Black sea to the Adriatic, but now blotted from the map of nations. In race they are distinct from the Ottoman people as in their religion, which is that of the Greek Church.—Something of the old republicanism of the early New England colony may find a parallel in them—for they are, in fact, a republic of small communities, each village having the right to be governed by its own assembly. The head of the people, called Bladicks, is both temporal and spiritual leader—is bishop and sovereign. The office is hereditary and in one family, but cannot descend directly, as the priesthood requires celibacy. The present Bladicks is like another great personage, "the nephew of his uncle," but unlike the present French Emperor is a practised soldier, having been educated to a military career before entering the church.

Like most mountaineers, the Montenegrins are sharp shooters, using long guns that carry to a great distance, and hardy, brave and fierce and burn with unquenchable hatred against the Turks. Their land is a series of mountain peaks, with deep valleys between, without roads except rough and scarce discernable paths and abounding in fastnesses all but inaccessible to regular troops. Constantly annoyed by their incursions into its territory, the Porte has at tempted to crush them, and hence the present war.

In the examples of similar attempts before alluded to, the long and costly and doubtful struggle has been between such peoples and mighty nations in the prime of vigor, and assisted by all that exhaustless means and modern science can supply. Here they have only to contend with effete monarchy, with irregular and feeble resources, and far behind the rest of Europe in warlike arts. The result especially if the mediation of Russia and Austria be thrown into the scale of the Montenegrins is hardly to be questioned.

Meanwhile we of the United States who are so sympathetically alive to every effort to maintain our own cardinal principle of the independence of every people who desire it against the centralization of great powers cannot but look with interest at the brave struggles of these mountaineers, though their territory and numbers hardly would equal a single county of some of our own States.

LEGISLATURE OF MAINE.

IN THE SENATE

AUGUSTA Feb 17

Passed to be engrossed—Resolve in favor of Peter Mitchell Representative of the Passama quoddy Indians—($60 for pay as Rep.), Resolve directing the Land Agent to go to Massachusetts, to ascertain and report on what terms the interest of the State can be purchased.

On motion of Mr Eaton:

Ordered, That the Land Agent be requested to communicate to the Senate the number of lots of land sold by the State to actual settlers, and the number of actual and permanent settlers settled upon said land, from the year 1841 to the present time, giving a detailed account of the number size and location of said lots sold, and the amount paid for them and by whom, and the amount actually realized from such sales; what portion of the undivided public lands are suitable for settlement for agricultural purposes, and also the expense of the land office, which has accrued during said time, appertaining to the sales of said settling lands, as far as practicable.

IN THE HOUSE.

Mr Hill of Bangor called up the resolve offered yesterday by Mr Arey of Hampden for the appointment of a committee to proceed to Massachusetts and ascertain on what terms she will sell her interest in the undivided lands. At the suggestion of Mr Baker of Windham, the resolve was amended so as to authorize the Land Agent, instead of a committee, &c, and the resolve was then assigned for a second reading to-morrow.

The resolve was passed to be engrossed.

On motion of Mr Arey of Hampden, the Land Agent was requested to furnish the House a statement showing the amount of sales of the public lands for the year 1840, and for each year since, up to Dec 31, 1852, also a statement showing the expenses of his office for each year; also what amount of settling lands have been sold or taken up during the same time.

Passed to be engrossed—Bill to incorporate Bangor Slate Co, to amend chapter 200 of the laws of 1846, relating to hawkers and peddlers, resolve laying taxes on the several counties in this State.

Petitions referred—J Webb, et als, of Corinville, for the repeal of the Maine Law, J Witham et als, and O G Peck et als, with regard to the seining of Menhaden, J Trask for divorce, Atlantic & St Lawrence R. R. Co, for leave to construct a line of steamers, Eli Goss for pension, Merchant's Bank, for increase of capital stock; D H Taylor et als, for revival of the mining laws of 1848, David Bowen et als, in favor of petition of J Pomeroy, inhabitants of Freeport for railroad, H D McLellen et als, for alteration in law relating to dower, Franklin Thomas Turner, for change of name; Am Peace Society in favor of arbitration as a substitute for war, inhabitants of first parish in Farmouth that funds held by religious societies may be exempted from taxation, memorial of J B. Lowell et als against the repeal of the Maine Law, Wm Ricker et als, John Stinchfield et als, and H. S. Herrick et als, in aid of Portland & Oxford Central Railroad.

Remonstrances of Oliver Cleaves et als, of Steuben, and Charity Nash et als against the repeal of the liquor law; inhabitants of Chesterville against the same.

☞ The population of Cincinnati, by a census just taken, is found to be 169,119—an increase of nearly 40,000 since 1852.

There are seven thousand persons in prison in the United States, of whom four thousand three hundred are natives.

CONGRESS.

WASHINGTON, Feb 17

IN THE SENATE

Several private bills were disposed of and many unimportant reports made.

Mr Douglas reported back to the House the bill establishing the territorial government of Nebraska and Washington.

Mr. Underwood from the Committee on Foreign Relations to whom was referred the memorials praying the freedom of religious worship may be secured to Americans in other countries, presented a report, accompanied by resolutions, recommending that in all future treaties provision should be made to secure freedom of worship to all Americans in foreign countries.

Mr Hamlin offered a resolution, which was agreed to requesting the Secretary of War to communicate the estimates for putting Portland Me, in a good condition of defence.

Mr Weller offered a resolution requesting the Postmaster General to communicate copies of all propositions entered into within the past six months for the transportation of the mails from New York, New Orleans and Vera Cruz to San Francisco in California.

Mr Sumner offered a resolution directing the Postmaster General to communicate a statement of the amount of postages collected in the United States on account of the British Post Office since the Postal Convention, also, the amount of commissions allowed United States Postmasters on the same. Adopted.

Mr Bright offered a resolution calling for copies of the reports of the qualities of the several coal fields and coal mines of the western waters.

The resolution of the Committee on Foreign Relations concerning the Tehuantepec route, were postponed until Wednesday next, when Mr Norris has the floor.

The Pacific Railroad bill was then taken up.

Mr Bell resumed and concluded his speech in favor of the Bill, commenced on Saturday the 5th inst.

Mr Smith followed in favor of the bill. In the course of his remarks he said he was perfectly willing to leave this matter to be arranged by the incoming President.

Mr Chase supported Mr Broadhead's substitute for a preliminary survey, and the subject was postponed after an executive session which continued until near 5 o'clock. The Senate adjourned.

IN THE HOUSE

The bill establishing reciprocal trade with the British American Provinces was taken up.

Gleanings from Punch.

Political Truism. If the present Ministers do not fall out, it is more than probable that they will keep in.

The Member for Oxford. Mr Percival had no chance against Mr Gladstone. Some bucolic gentleman should have been put up for Oxon.

The Principle of Promotion. John Bull may boast that he is not to be taken in, yet the age of the general officers appointed to the most important commands sufficiently shows how easy it is to come the old soldier over him.

Fowl Dealings of Foreigners. The immense number of eggs imported into England is a great fact, for farmers. How much longer will they endure this foreign yolk? There was a time when they defied the Gallic cock—surely they might compete with the Gallic hen. British industry ought to turn its attention to poultry, and in the preceding remarks about eggs, we think we have said enough to egg it on.

The Imperial Sports. The Paris correspondent of the Morning Chronicle says: "A grave deliberation yesterday took place in the Senate. The Emperor having expressed a wish that knee breeches should be generally adopted by the Senators on great occasions, it was carried by a majority of 16, so that on occasion of the next ball to be given to the Emperor on the 20th, all the members of the Senate should appear in shorts." We are glad to find the Emperor making such a point of wearing the breeches. We hope that the determination which he evinces as a bachelor will be equally exhibited by him when he has become a married man.

Love of the Spanish. Some doubts have been thrown on the fortune of Mademoiselle de Montijos, the Empress—that is to be—of France. We are enabled to say that the young Spanish lady is in her own right the owner of several *Chateaux en Espagne*.

THE CARPET BAG. Mr J C G Halpine has recently become an associate editor of this spicy little weekly, and will hereafter carry it on in conjunction with Mr B P Shillaber the former editor. We learn that the Carpet Bag is to be enlarged and improved. Mr Halpine is an able and talented writer and in conjunction with his partner, Mr Shillaber, will undoubtedly render the paper a choice and interesting one to its readers.

Lovers' Labor Lost. Two men exert themselves to no purpose. One is the man who tries to have the last word with his wife, and the other is he who, having had the last word tries to make her confess she was in the wrong.

☞ An independent country editor very pointedly remarks:

"We do not belong to our patrons. Our paper is wholly our own—
Whoever may like it, can take it,
Who don't can just let it alone."

H. G. Farrell's Arabian Liniment

TRIUMPHANT OVER DISEASE.

This truly great medicine still goes on conquering disease, and snatching many a poor powerless victim from the grave. By its powerfully stimulating, penetrating and anodyne qualities it restores the use of limbs which have been palsied for years and by its singular power of reproducing the spiritual fluid or joint water, it cures all diseases of the joints with surprising rapidity. For rheumatism, and affections of the spine and sciatica, it has proved itself a specific and for affections of the lungs liver and kidneys it is a most valuable and powerful auxiliary also, for all diseases of the glands, scrofula goitre or swelled neck etc., etc. And indeed for almost any disease where an external application is required, this medicine stands unparalled. Sprains, bruises, cramps wounds, chilblains burns, etc. are speedily cured by it.

From the Hon Peter Menard one of the oldest settlers in Illinois

It gives me pleasure to add my testimony to the virtues of your great medicine. One of my blooded horses had a swelling over the cap of the knee about the size of an egg. Some said it was a strain and some that it was the joint water from the knee and could not be cured. I tried oil cedar on it, and all the liniments and ointments, and they did no more good than water. I then, by persuasion of my friends, tried H. G. Farrell's Arabian Liniment and I was happy to find it take effect after a few days, and it finally cured the noble horse entirely. I think it is decidedly the greatest liniment for horses as well as human flesh I ever knew.

Fremont, Tazewell co Ill March 16th 1849

PALSY OR PARALYSIS

Rhoda Smith, of Mudd Creek Fulton county Illinois says: "I had lost the use of my arm for more than a year by palsy or paralysis the flesh had entirely withered away, leaving nothing but skin and bone. I tried all the best doctors and all the medicine I could hear of but they did no good. I then commenced using H. G. Farrell's Arabian Liniment, and a few bottles entirely cured me, and my arm is now as strong and healthy as the other. It is also first rate for burns, scalds and bruises."

LOOK OUT FOR COUNTERFEITS

The public are cautioned against counterfeits of the Arabian Liniment, the most dangerous of all the counterfeits because his having the name H. Farrell may well try to impose upon those who have the knowledge that a counterfeit exists, and they will perhaps only discover their error when it is too late to cure the effects.

The genuine article is manufactured only by H. G. Farrell sole inventor and proprietor and wholesale druggist No 17 Main Street Peoria, Illinois to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's name, H. G. FARRELL'S—and his signature on the wrappers, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail Bangor. Also by R. F. Kimball Oldtown, French & Hamilton Dexter, Geo. Pierce Ellsworth, P. O. Flaherty Houlton. And by regularly authorized agents throughout the United States.

☞ Price 25, and 50 cents and $1 per bottle.

AGENTS WANTED in every town will go and form in the United States, which one is not already established. Address H. G. Farrell as above accompanied with good reference as to character, respons bility &c.

RAIL-ROAD STOVE!

The above named STOVE, which for durability of material, beauty of design perfection in all its cooking apartments, is considered by all who have seen and used it, to be the most perfect Cooking Apparatus ever brought before the public and will be an general a favorite with the citizens of Bangor and vicinity as the gigantic enterprise whose name it bears. This being the latest Stove put out, it notes the perfections and eschews the faults

Of the best Cook Stove [previously] ever offered to this or any other people.

We have lately added to our stock of Cooking Apparatus, of our own contrivance and construction, which cannot be equalled for simplicity of neatness, by any other made. With this arrangement Beef Steak may be broiled with chops or shavings without smoking the room or letting smoke into the room, as in the old way. Call and see our Apparatus, all who intend to purchase, and be convinced of its superiority. We are the sole proprietors and manufacturers of the P & K R R Stove, and it cannot be purchased at any other place in the city. We make a liberal discount to country traders

THE GREAT REMEDY FOR

Coughs, Colds and Consumptions.

VEGETABLE PULMONARY BALSAM is probably without a parallel in having, during a period of more than Twenty-five years fully maintained the high reputation which it has acquired for CONSUMPTIVE COMPLAINTS and all DISEASES of the LUNGS, THROAT and CHEST It has been used with probably greater success than any other article known and Physicians who have had an opportunity of witnessing its highly salutary effects recommend it as a safe and very efficacious medicine equal if not superior to any other prescription for the above complaints within their knowledge The testimony of this Medicine was so well established by a distinguished Physician in one of the neighboring States, and was preserved by his kindly disposed to whom it gave the most astonishing relief. It is composed of vegetables and if used according to directions must be perfectly harmless

From Messrs Allen & Co, Wholesale, Cincinnati—Those persons who have used the Vegetable Pulmonary Balsam uniformly speak of it as a valuable medicine, and the quantity sold notwithstanding the number of other preparations used for similar complaints, we consider first on the list.

Respectfully &c, ALLEN & CO

The Editor of the Sentinel Falls Chronicle says—We have had occasion to witness the good effect of the Vegetable Pulmonary Balsam in our family in cases of severe cough, and we feel bound to recommend it as a safe and very efficacious medicine equal if not superior to any other prescription for the above complaints within their knowledge The testimony of this Medicine was so well established by a distinguished Physician in one of the neighboring States, and was preserved by his kindly disposed to whom it gave the most astonishing relief. It is composed of vegetables and if used according to directions must be perfectly harmless

A Clergyman from Philadelphia writes, that he has been in the habit of using the Vegetable Pulmonary Balsam in his household and family for the last thirteen years and also of recommending it to his friends, and consider it an invaluable remedy for all pulmonary complaints

For the last five years of my practice I have had the satisfaction of witnessing the beneficial effects of Vegetable Pulmonary Balsam in many cases of obstinate coughs and other affections of the lungs I would therefore not only recommend its use in all complaints of the kind as being equal if not superior to any other remedy within my knowledge

ANOTHER SCIENTIFIC WONDER!

GREAT CURE FOR

DYSPEPSIA!

DR. J. S. HOUGHTON'S

THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC FLUID.

Prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG the great Physiological Chemist, by J S. HOUGHTON, M D, Philadelphia Pa.

"DIGEST" Such is the true meaning of word PEPSIN It is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food the Purifying, Preserving, and Stimulating Agent of the Stomach and Intestines It is extracted from the Digestive Stomach of the Ox, thus forming a TRUE DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it

This is NATURE'S OWN REMEDY for an unhealthy Stomach No art of man can equal its curative powers It contains no ALCOHOL, BITTERS, ALUDS or NAUSEOUS DRUGS It is extremely agreeable to the taste and may be taken by the most feeble patients who cannot eat a water cracker without acute distress Beware of DRUGGED IMITATIONS Pepsin is NOT A DRUG

Half a teaspoonful of Pepsin infused in water, will digest or dissolve Five Pounds of Roast Beef in about whose urs, out of the Stomach

SCIENTIFIC EVIDENCE

☞ The Scientific Evidence upon which this remedy is based is the highest degree Curious and Remarkable Call on the Agent and get a Descriptive Circular giving a full Statement of Scientific Evidence, from Liebig's Animal Chemistry, Dr Combe's Physiology of Digestion, Dr Pereira on Food and Diet, Dr John W Draper, of New York University, Prof Dunglison a Physiology, Prof Silliman, of Yale College, Dr Carpenter's Physiology, &c, together with reports of cures from all parts of the United States

PEPSIN IS FLUID AND POWDER

Dr Houghton's Pepsin is prepared in Powder and in Fluid Form—and the Prescription exists for the use of Physicians The Powder will be sent by Mail, free of Postage, for one Dollar sent to Dr. Houghton, Philadelphia

☞ OBSERVE THIS!—Every bottle of the genuine Pepsin bears the written signature of J S HOUGHTON, M D sole proprietor, Philadelphia, Pa Copyright and Trade Mark secured
